These can be consulted at the library itself, or you can borrow them to take home.

We also provide other services:

And we organise:

- Cultural activities (exhibitions, talks, book presentations, etc.)
- Guided visits to the library

 **Children have their own special area.**

 **Library staff are there to help, and to answer any questions you may have.**

 A library is also a doorway to getting to know more about a country's language and culture.

Here you'll find lots of resources for learning Catalan and Spanish.

In order to use some library services, you'll need a library card.

To get one, all you have to do is present an official identification document: National ID document, passport or residence card.

- Your library card is personal, and cannot be used by other people.
- Under 14s need parental authorisation.
- Holding a library card means that you accept the library's rules. The most important of these are:
 - To return borrowed items on time.
 - To treat borrowed items with respect.
 - Not to behave in ways that may disturb other users.

Loan of books and other documents:

- You can borrow up to 30 documents on presentation of your library card.
- These items are lent free of charge, and your library card is valid at all public libraries.
- The loan period is 30 days.
- You can renew by going to the library in person, by phone or via the Internet, as long as the items in question have not been reserved by someone else.

You can request books from other libraries.
